FROSTY CLUB NEWS

From your President... Happy to report that trails are in great shape and a regular grooming schedule will continue as conditions warrant. Frosty Club trails will remain open through March 31 if Mother Nature cooperates. Many thanks to the countless volunteers that helped make the Radar Run a success. Conditions were brutal but a very successful day over all. We look forward to seeing you at the Scavenger Hunt this Saturday, February 20th and a possible pop up party??? Stay tuned for updates!

Trail Report

Trail conditions are looking good with 12-16 inches as a good solid base and in EXCELLENT riding conditions. Groomers have been out every night in the brutal cold conditions. They are definitely looking forward to temps above 0. Trail Boss Rob is happy to report that both groomers are working great and are looking forward to the rest of the season.
