LOOK FOR THIS SIGN.
IT MAY SAVE YOUR, OR A FRIEND'S LIFE.
INTERSECTION 801 VILAS

Following a pilot test project in parts of Vilas County the past two, or three years, Vilas County is going forward with its THREE DIGIT EMERGENCY LOCATION IDENTIFICATION SYSTEM. Each Snowmobile Club has identified key intersections and road crossings with a three digit number. The County Sherriff's Department & Emergency Response Dispatch Center has computerized the locations of the signs. When you call 911 with an emergency request and give them that #, they can pull up the location and have help on the way in just a few minutes. NO MORE GUESSING WHERE YOU ARE, THEY KNOW YOUR EXACT LOCATION!

HERE'S HOW IT WORKS: Looking at the Vilas County Snowmobile map, notice that there are blue lines dividing the county into 9 areas. The signs are 4" x 4" in size, and brown with white lettering and border. The area number is the first digit of the sign number and the other two numbers identify the exact sign location which is recorded in the master computer file.

LOOK FOR THE SIGNS DIRECTLY UNDER THE STOP SIGN AT KEY ROAD CROSSINGS AND TRAIL INTERSECTIONS. At some trail intersections, they may be located next to other directional signs, but on a separate post. Pay attention to those signs in case you encounter an accident, or need help. You can send someone back to the sign where they can call and wait for emergency personnel, then lead them back to the accident site.

We sincerely hope you will join us at our meetings September through April, (first Monday of the month. 6 p.m. at the Town Hall). We'd like to see you at our various events and on the trail too. Hope you'll join us. Don't forget: RIDE SAFE, RIDE RIGHT & ENJOY!
